DETAILED ACTION

Allowable Subject Matter

1. Claims 1 through 8 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance: the prior art of record (Bruni et al. US 5,327,065) teaches a primary winding (23) having a primary core (22) which penetrates the primary winding (23) (see figure 1). However, the primary core 22 does not penetrate the second windings (33 and 34) (see applicant's argument filed January 29,2007).

On the other hand, the present invention specifically teaches fails a charring device including a primary side coil and an induction core which penetrates through the primary side coil, and a portable equipment which includes a secondary side coil which allows the induction core to pass therethrough. These limitation, has not been disclosed , taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
